

2010-2011 INTERNATIONAL YOUTH EXCHANGE STATISTICS

Semester and Academic Year Programs
2010-2011 Cycle

Prepared by:
Lindsay Poehlman
Program Officer
March 2011

The Council on Standards for International Educational Travel (CSIET) annually evaluates U.S.-based youth exchange programs to ensure compliance with CSIET Standards, so that students, families, and schools can identify reputable inbound and outbound exchange organizations.

CSIET collects student numbers from exchange organizations voluntarily applying for listing in the *Advisory List*. This report provides international youth exchange statistics from the 2010-2011 academic cycle.

The first part of this report provides data tables for each category of exchange activity. The second half includes graphics to provide a comparative perspective.

Please note that since not all U.S.-based exchange organizations apply for CSIET listing, the statistics in this document do not include every existing U.S. Youth Exchange Organization. However, they do reflect the vast majority of the field.

Additionally, the accuracy of the data collected relies on the data as presented by applicant youth programs and is not externally verified by CSIET.

Since the statistics in this document were based on exchanges conducted by U.S.-based exchange programs, “**Inbound**” is used to describe a program that brings students *into* the United States, mostly on the J-Visa, and some on the F-1 Visa.

Likewise, “**Outbound**” is used to describe a program that sends American students *out of* the United States.

Table of Contents – U.S. Data

U.S. State Totals.....	8
U.S. State Ranking By Number of Students Hosted.....	9
U.S. State Ranking By Number of U.S. Students Sent Abroad.....	10
